RE: ANCHOR BAY POWDER COAT

Dear Sir,

I am writing this letter to thank you for your services at Anchor Bay Powder Coating. During the past 20 years our company has work with Anchor Bay Powder Coating at coating our air filtration housings and panels for the Havac industry. One of the key factors with our industry is for the coating to hold up to a number of climate changes.

We are confident when we send out our product that it will hold up to the worst conditions. Working with them over the years with their ability to coat all of our products makes it easy for us to quote jobs. Their quality and turnaround time is another great aspect of the company.

I would recommend Anchor Bay Powder Coating to anyone that has to have a specific spec or needs a product with a coating that you can rely on to holding up.

Warm regards,

Marc Fulker

Plant Manager, RSE INC.
